Naman Arora

Game Designer | 3D & 2D Artist | UX/UI & Game Developer

India

Summary

I am a second-year Bachelor's student at Dev Bhoomi University specializing in Game Design and Animation. Over the past year, I have developed 3+ games, created 2 small 3D animations, and studying as both a 2D and 3D artist. My versatile skill set spans UX/UI design, game development, and programming languages including Python and C#, enabling me to contribute creatively and technically.

I have completed three internships—one with an NGO and two in design fields—gaining valuable experience in user-centered design and digital storytelling. My background in competitive taekwondo and football at the district level has strengthened my teamwork, discipline, and time management skills.

Passionate about merging art and technology, I am eager to explore diverse opportunities in game design, UX, animation, and entrepreneurship. I am actively seeking internships, scholarships, and roles internationally, with a focus on Asia and Europe, to broaden my horizons and collaborate on innovative projects.

Portfolio:

Artworks: naman-arora.jimdosite.com

3D Artworks: artstation.com/namanarora3002

Experience

Brainwave Matrix Solutions

UX/UI Internship

April 2025 - May 2025 (2 months)

Muskurahat Foundation

Crowdfunding Intern

February 2025 - March 2025 (2 months)

Dwello Aerospace
Design Internship
January 2025 - March 2025 (3 months)
India

I'm interning at Dwello Aerospace for 8 weeks, gaining expertise in cutting-edge missile systems and aerospace design through online training
